

GUTReaction

Friday 16th November

GUTReaction

A one day event that will take you on a journey from the top to the bottom of the gastrointestinal tract.

This one day conference will bring together expert speakers in gastroenterology and combine real-world evidence with cutting-edge research to help you to manage those tricky gut problems.

By attending our conference, you will have the unique opportunity to be fully immersed in one of medicine's most fascinating fields. You will be offered the knowledge and the tools necessary to improve gut health for everyone.

Don't miss your chance to meet like-minded healthcare providers and discuss ideas with our world-renowned specialists.

Topics to include:

The microbiome as a reservoir for antimicrobial resistance; impacts and mechanisms of transfer

Dr Mark Webber

Real World Evidence and implications for primary care gastroenterology

Dr Jamie Dalrymple

The role of the infant diet in shaping the gut microbiota

Dr Melissa Lawson

Reflux, Barrett's and PPIs – the truth and lies

Dr Robert Willert

New BSG guidance and IBD Standards

Dr Kevin Barrett

Transnasal endoscopy

Lois Penketh-King

Bowel cancer screening non responders: what can be done to increase uptake in men from lower socio-economic groups?

Dr John Scott

**Free to attend for healthcare professionals (spaces are limited)
CPD points will be awarded**
